**BACK**

## RetroN® 2 SETUP

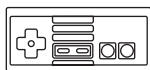

1. Insert the AV/S Cable into the AV or S-Video Out (video output only) on the RetroN® 2. The S-Video function only works on SNES and Genesis games.
2. Insert the other end of the AV/S Cable into the AV or S-Video ports on the TV.
3. Insert the AC Adapter into the DC port on the RetroN® 2.
4. Plug the AC Adapter into a power outlet.

## PLAYING GAMES

1. Insert the cartridge into its appropriate slot (NES or SNES).
2. Use the System Selector switch to choose which system you will be playing. A red light will indicate NES is selected. A green light indicates SNES is selected.
3. Turn ON the RetroN® 2 by pressing the Power button.
4. When you're done playing an SNES game, after you have turned OFF the console, you can push the EJECT button to remove the cartridge from the RetroN® 2.

## Using NES or SNES Controllers

NES Controller

SNES Controller

With the RetroN® 2 turned OFF, insert the controller(s) into their corresponding slot (NES or SNES).

The RetroN® 2 comes with an NES-compatible controller and an SNES-compatible controller. The RetroN® 2 also supports original NES and SNES controllers.

*Note: NES and SNES controllers are only playable with their corresponding systems.*
